

Pure Material Trading Company

Pure Materials

Trading Company

Connecting Petrochemical Producers to
Global Markets

Company Profile 2025

About Us

Four Years of Growth and Excellence

Our Mission

To connect premium petrochemical producers with global markets through reliable, efficient supply chain solutions.

Our Vision

To be the preferred trading partner for quality polymers in the Middle East and beyond.

Our Journey

2021

Founded with a vision to bridge producers and markets

2022

Established Jeddah Logistics Hub (15,000 m²)

2023

Expanded to Medina; Regional partnerships established

2024

Global reach to GCC, Africa, and Asian markets

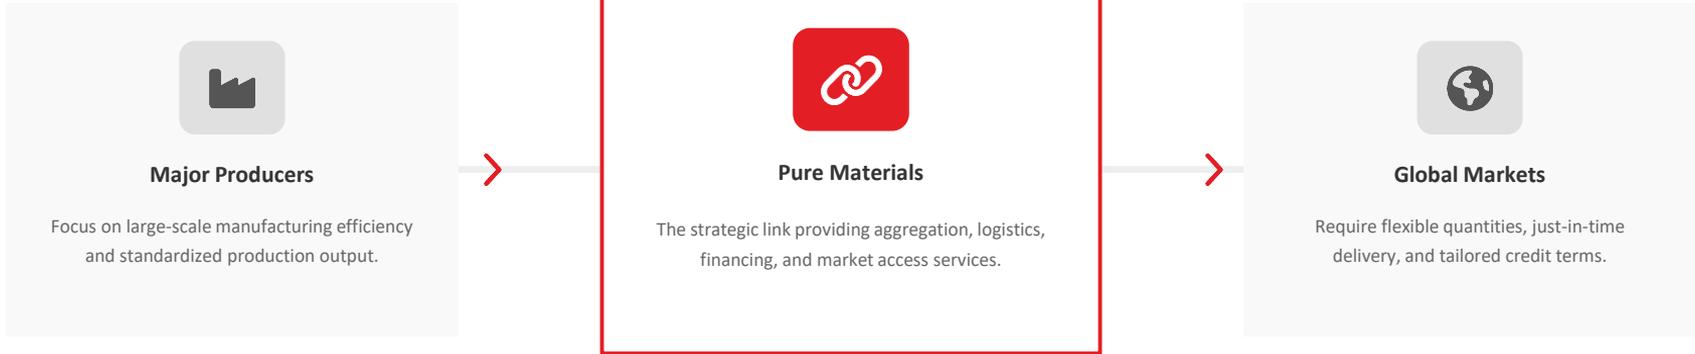

2025

Market leader in polymer trading and logistics

Our Value Proposition

Bridging the Gap Between Producers and Markets

Logistics Excellence
Seamless movement of goods from factory gate to customer warehouse.

Financial Flexibility
Bridging the gap between producer payment terms and customer credit needs.

Market Intelligence
Providing real-time insights on pricing trends and supply availability.

Integrated Supply Chain

End-to-End Solutions from Producer to Customer

1

Strategic Sourcing

- Partnerships with Tier-1 producers
- Quality verification & CoA review
- Competitive market pricing
- Secure supply allocation

2

Integrated Logistics

- Port operations & clearance
- 15,000 m² storage capacity
- Inventory management (VMI)
- Rapid distribution network

3

Trade Support

- Documentation & compliance
- Flexible payment terms
- Market insights & trends
- 24/7 customer support

Services & Support

Adding Value Beyond Material Supply

Technical Expertise

- ✓ Material selection guidance based on application needs
- ✓ Processing optimization advice
- ✓ On-site troubleshooting and technical support

Quality Assurance

- ✓ Strict supplier vetting (Tier-1 producers only)
- ✓ Batch-to-batch consistency verification
- ✓ Compliance with SASO, REACH, and ISO standards

Customer Centricity

- ✓ Dedicated account managers for personalized service
- ✓ Real-time order and shipment tracking
- ✓ Responsive after-sales support and feedback loops

Financial & Trade Solutions

- ✓ Flexible credit terms and payment options
- ✓ Expert handling of Letters of Credit (LC)
- ✓ Seamless customs clearance and documentation

Polymer Portfolio

Comprehensive Range of High-Quality Materials

Polyethylene (PE)

LDPE

Low-density, flexible, excellent processability.

Apps: *Films, bags, flexible tubing.*

LLDPE

Linear structure, superior puncture resistance.

Apps: *Stretch films, containers.*

HDPE

High-density, rigid, chemical resistant.

Apps: *Bottles, pipes, crates.*

Polypropylene (PP)

Homopolymer

General-purpose, high stiffness-to-weight ratio.

Apps: *Raffia, fibers, packaging.*

Impact Copolymer

Superior impact strength, tough at low temps.

Apps: *Automotive, pails, furniture.*

Random Copolymer

Improved transparency and flexibility.

Apps: *Food containers, pipes.*

Specialty Polymers

PS / PVC

Polystyrene for packaging; PVC for pipes & cables.

Apps: *Disposables, infrastructure.*

PET

High clarity, excellent barrier properties.

Apps: *Beverage bottles, films.*

ABS

High impact resistance, superior surface finish.

Apps: *Automotive, appliances.*

Industry Applications

Powering Diverse Sectors with Quality Materials

Packaging

- Flexible packaging films & bags
- Rigid food containers & bottles
- Industrial wrapping & protection

Materials: PE, PP, PET, PS

Construction

- Pressure & drainage pipes
- Cable insulation & jacketing
- Window profiles & flooring

Materials: PVC, HDPE, EPS

Automotive & Industrial

- Bumpers & interior dashboards
- Battery cases & fluid tanks
- Industrial pallets & crates

Materials: PP-ICP, ABS, HDPE

Consumer Goods

- Household appliances & electronics
- Furniture & garden equipment
- Toys & recreational items

Materials: PP, PS, ABS

Our Operations

Strategic Presence & Global Reach

Kingdom of Saudi Arabia

Riyadh (Headquarters)

Central management, strategic planning, and sales operations hub.

Jeddah (Logistics Hub)

Main distribution center featuring **15,000 m²** of storage capacity near Jeddah Islamic Port.

Medina (Branch)

Dedicated branch serving the industrial needs of the Western Region.

International Markets

GCC Region

Active supply chain serving UAE, Bahrain, Oman, and Kuwait.

Africa & MENA

Export operations to Egypt, Sudan, and Kenya, leveraging strategic port access.

Infrastructure

Built for Scale, Safety, and Speed

Flagship Facility

Jeddah Logistics Hub

15,000 m²

Storage Capacity

Strategically located near Jeddah Islamic Port to facilitate rapid import/export operations and efficient distribution across the Western Region.

Safety First

Rigorous HSE protocols ensuring zero accidents and material integrity during handling and storage.

Smart Inventory

Advanced Warehouse Management System (WMS) for real-time tracking and stock accuracy.

Rapid Dispatch

Dedicated fleet and loading bays designed for high-volume throughput and just-in-time delivery.

Strategic Partnerships

Collaborating with Industry Leaders

Petrochemical Producers

Why Choose Us

Three Pillars of Our Value Proposition

Unwavering Reliability

We build trust through consistent performance and dependable supply chains.

- ✓ Guaranteed material availability
- ✓ On-time delivery commitments
- ✓ Transparent communication

Deep Expertise

Leveraging years of industry knowledge to guide your material decisions.

- ✓ Technical material selection
- ✓ Market trend analysis
- ✓ Regulatory compliance guidance

Operational Efficiency

Optimizing processes to save you time, money, and operational headaches.

- ✓ Streamlined logistics flow
- ✓ Cost-effective sourcing
- ✓ Rapid documentation processing

Quality & Compliance

Uncompromising Standards for Global Trade

Zero-Tolerance Policy

- Strict adherence to material specifications
- Sourcing exclusively from Tier-1 producers
- No compromise on packaging integrity

Verification Process

- Comprehensive CoA (Certificate of Analysis) review
- Pre-shipment visual inspections
- Random sampling for batch consistency

Regulatory Framework

- Full SASO compliance for KSA imports
- REACH standards for global markets
- Adherence to international HSE guidelines

✓ SASO Certified

✓ ISO Standards

✓ REACH Compliant

✓ HSE Protocols

Success Story

Supply Chain Optimization in Action

Client Profile: Leading Regional Packaging Manufacturer

The Challenge

The client faced severe production disruptions due to inconsistent raw material supply from international markets.

High warehousing costs and tied-up capital in safety stock were eroding profit margins.

Our Solution

-  **Vendor Managed Inventory (VMI):**
Implemented a dedicated buffer stock solution at our Jeddah Logistics Hub.
-  **Just-in-Time Delivery:**
Established a daily delivery schedule to match production shifts.
-  **Flexible Financing:**
Extended 60-day credit terms to ease cash flow pressure.

The Impact

30%

Reduction in Working Capital

0%

Production Downtime (24 Months)

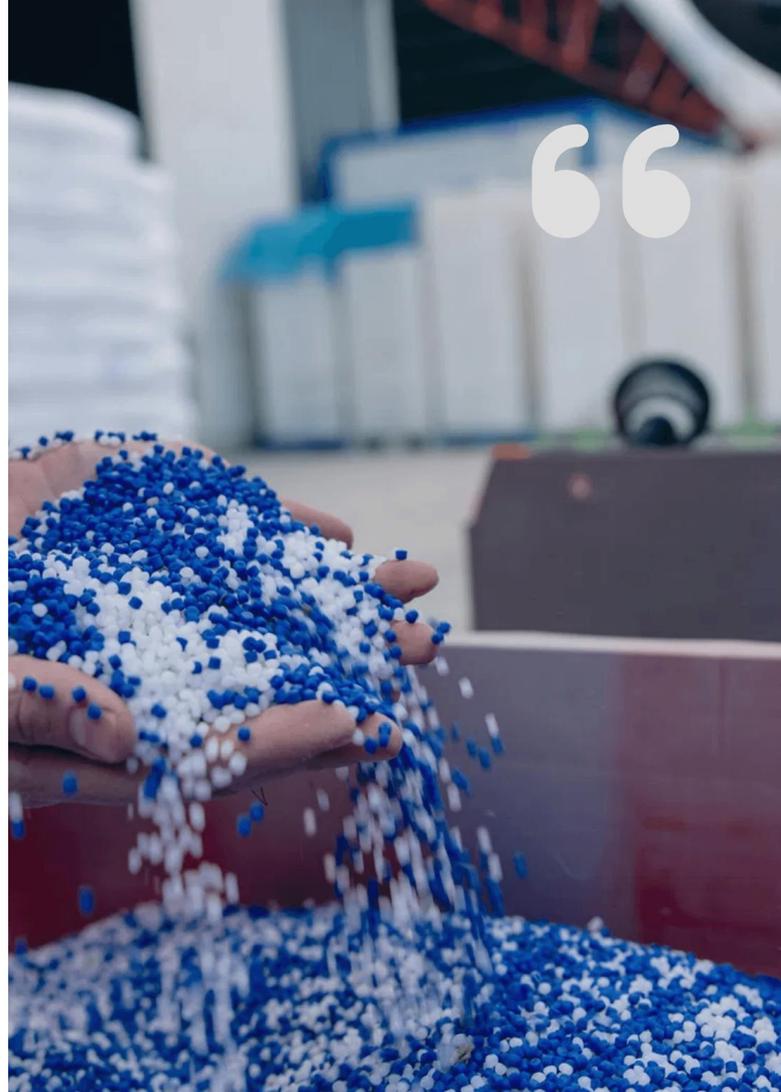

15%

Logistics Cost Savings

Our Commitment

Building the Future, Together.

We don't just deliver materials; we deliver **confidence**. Our promise is to be the steadfast link in your supply chain, ensuring that your production never stops and your business keeps growing.
